

CAMINADA INTERNACIONAL DE BARCELONA 2018

Tutorial to pay the registration by credit card

Once filled the form, go to the end and click "start payment process"

- You must collect the Control form, because you must show it at the start and end of the walk in order that your bar code could be read. It will also be useful for you to mark the pass in all the controls of the route.

- Those marks will prove that you've walked 20 or 30 km, what will let you have the diploma and/or the medal and, also, the stamp for the IML and/or IVV.

- The confirmation of the payment is a mechanical procedure generated automatically. For this reason, you must take into account that there are servers that identify those emails as non-desired mail and derivate them to another folder. If you do not receive the answer mail of the registration, before claim it, please check this folder.

-After the registration, if you do not receive the confirmation mail, and if it is not in the non-desired mail folder, please send an email to caminba@euro-senders.com with the personal data of the registered person and what has happened. Do not wait and send this email as soon as possible. Try to solve the problem via internet and not in the registration point in person.

Organic law of Protection of Data (LOPD)

In fulfillment of the Organic Law 15/1999, of 13 of December, regulatory of the Protection of Data of Personal Character, inform you that the personal data that facilitate us to inscribe you to the International Trek of Barcelona of the 2006 will be treated in accordance with the guarantees of security and of due confidentiality for the law and stored in a digital file, the manager of which is International Walked Association of Barcelona.
